

Invoice CSV Field Guide

Required and optional columns for the Invoice CSV Bulk Import (Upload panel > CSV Bulk Import tab)

Each row becomes one invoice. Column names are matched flexibly (case, spacing, punctuation ignored) using the alternate spellings listed below. Amount columns may include currency symbols and thousands separators (e.g. "PKR 12,500") — these are cleaned automatically. Rows with missing required fields, invalid amounts/dates, or duplicate invoice numbers are skipped and reported individually.

- REQUIRED**

— row is rejected/skipped if this field can't be found
- optional**

— imported if present, safely ignored if missing

FIELD	REQ?	ACCEPTED HEADER NAMES	NOTES
invoice_number	REQUIRED	invoice_number, invoicenum, invoice_no, invoice_num, inv_number, inv no, invoice #	Must be unique per vendor within your org.
vendor_name	REQUIRED	vendor_name, vendorn, vendor, supplier_name, supplier, company_name
